## President's Report

LZEMER@ONLINE.NO

While my nine-year-old daughter Patricia attended a computer camp at UCLA last summer I spent a great week with David Leeds and stayed at his house in Los Angeles. It was a pleasant surprise to be asked by David to consider to be nominated for President of the CZSG. He said that he was the head of the nominating committee and because Jim Crum-packer was not going to run again that we needed a new President in 2004. My main concern was that because I live in Norway it might be difficult to keep in touch with the other members. However, we agreed that with the fast speed internet ac-

## Canal Zone Double Errors

by Gary B. Weiss

Early Canal Zone stamps are noted for many errors and varieties. Amongst the most familiar *plate varieties* are the various *wrong font errors*, some of which are listed (and priced) by Scott. *Overprint errors* are also well known, such as double or inverted overprints. When an overprint error occurs on a full or part of a pane of stamps that also contains plate varieties, "double errors" (and varieties) may take place. The listing of these double errors is inconsistent by both Scott and the Canal Zone Study Group. This article is written to provide a listing of such errors with suggested CZSG catalog numbers, illustrating those for which photographs are available, and to request confirmation (and photographs) of the rest of these errors. A listing of these major errors is included as a table on page 6.

The first such error occurs on the first Canal Zone stamp. Scott No. 1 has many constant varieties, two of which are listed in the Scott catalog, 1d, and 1f. As one pane had the overprint inverted, these varieties should (and do) exist with the inverted overprint. The first, PANAMA reading down and up with inverted overprint, is listed as Scott No. 1e (see *Canal Zone Stamps (CZS)* by Plass, Brewster and Salz; page 13, Fig. 2.9). Only two were printed and the double error is worth many times either error/variety itself, the used example

## Auctions

by Jim Crumpacker

The offerings of Canal Zone philatelic material at public auction were quite interesting in the fourth quarter, Oct. 1- Dec. 31, 2003. Shreves had a nice auction of 75 CZ lots, much of which were ex-Plass or ex-Helme. Several other firms rounded out the fall season with some better stamps.

The first dollar amount shown is hammer plus whatever commission was applicable. This is followed by the catalog price, in parenthesis, from the 2004 *Scott's Specialized Catalogue*.

## 2004 Scott's Specialized Catalogue of United States Stamps by Jim Crumpacker

The 2004 *Scott's Specialized Catalogue of United States Stamps* is now available. There are a goodly number of changes in the Canal Zone values, nearly all auction driven upward with only a handful of minor modifications in the prices of the basic integers. From the several important auction house offerings in the past year, people with fat wallets did battle for the rare and the obscure. Only a few of the more than two dozen such lower case letter moves, some huge, are shown below.

The editors also got a start on the "double errors" problem with a few new listings; see "1g" and "84e" below. This category is expected to be much expanded in future years, especially with regard to the First Issue, Scott 1-3.

A good 90% of the plate blocks of the Nos. 105-114 series enjoyed an increase, generally in the 25% range. I attribute this to the eBay influence wherein collectors are trying to "fill in

the "gaps" or are looking to start a positional collection cheaply. It is the rare dealer who has much of a stock of these.

There were vast valuation shifts in the envelopes and postal card categories, all in the "used" column and all upward. This is entirely justified, if one examines the CZSG Mail Sale results for the last several years it becomes obvious that food fights are taking place in this area. Again, it is a rare dealer possessing modern commercially used Canal Zone Postal Stationery in his stock. A few of the couple of dozen adjustments are shown below.

There were several new listings in the "Proofs" section as long-hidden large die proofs were pried out of hiding and sent off to auction.

All in all, the Scott's editors once again did an outstanding job, having kept an avid eye on both dealer stocks and the auction house trade.

Featured below are some of the more meaningful changes. Stamps are all OG, with gum status per Scott's listings, unless shown otherwise.

## Canal Zone Double Errors, (continued from page 1)

is shown in Fig. 1. The second, inverted overprint, vertical pair with PANAMA reading up on top stamp and down on bottom stamp is known, but not listed until the *Scotts 2004 Specialized Catalog*. Although ten such pairs existed in the original inverted error pane, only one unused pair is now recorded and is part of the block that contains the unique error (Scott No. 1c), double overprint, both inverted (CZS, page 13, Fig. 2.8). The pair is shown photographically cropped from the block (Fig. 2) and should be Scott CZ No. 1g. A used pair may exist. Numerous minor varieties (shifted overprints, long PANAMA) also are known in conjunction with other errors/varieties; while worthy of collecting, they do not warrant a listing.

Panes of Scott Nos. 2 and 3 contained two important plate varieties that are priced in Scott, left PANAMA 2 1/4 mm below bar (CZSG No. 2.1 and 3.2) and colon between right PANAMA and bar (CZSG No. 2.2 and 3.3). These varieties are all known from the panes with inverted overprints (Scott 2a and 3a) or diagonal overprint (Scott 2d). These six double error/varieties should be listed as CZSG 2a.1, 2a.2, 3a.2, 3a.3, 2d.1 and 2d.2 (Fig. 3) respectively. One, CZSG 3a.3 is illustrated in CZS (page 18, Fig. 2.24) where it is described as a CZ 3a variety.

The second issue, Scott Nos. 4-8, has no known errors and so no double errors.

The next issue, Canal Zone Scott No. 9 and 10 contain both overprint errors (inverted and double) and many varieties. There were several printings and so not every variety could be present on the error panes. The invert of the 1 cent, Scott No. 9c, is very rare but the variety, spaced A\_L of CANAL is noted in the CZSG checklist; it should be listed as CZSG No. 9c.1 and an illustration is requested. The double CZ overprint (Scott No. 9d) is also rare and it is uncertain which late printing included this error. The fortunate owners should check their copies for the antique CANAL or antique ZONE variety, which might have once existed, but their existence is currently unknown. The inverted overprint on panes of the first printing of Scott 10 contained the variety spaced A\_L in CANAL. It should be CZSG No. 10a.1. An example sold in the recent Drucker sale as part of a block of six (Fig. 4), but commanded no premium, perhaps because it was an "unlisted" double error.

The overprinted Panama map series (Scott 11-20) is quite complex and will be reviewed one stamp at a time. For Scott 11, the 2c value, two panes had the PANAMA overprint inverted (Scott 11b). These panes would have contained all of the varieties known of both the PANAMA and CANAL ZONE overprints. The detailed CZS list notes that 11b exists with varieties: a, .1, .2, .3, .4 and .5 and CZS illustrates a block containing CZSG variety 11b.2 which has the right PANAMA 16 mm long. In spite of 200 stamps being issued, only 35 are recorded in collector's hands. The combinations may not all exist and the editor would appreciate illustrations of the remaining five double errors. The combination of inverted PANAMA overprint and antique ZONE would be CZSG 11c if it exists, while the others would be 11b.1 to 11b.5.

The 5c, Scott 12 includes three major errors (CANAL ZONE double, PANAMA double, and PANAMA inverted) and numerous varieties. Fortunately, not each variety occurs for each printing. The double overprint of CANAL ZONE (12c) is known from two printings, 3P, stage I and 7P, 4-B, stage V. On the former, PANAMA at right is known and illustrated in CZS as Fig. 4.20 on page 42; it should be CZSG 12c.13. Other varieties that could still exist are: spaced A\_L, right PANAMA 5 mm below bar, and PANAMA at right. From the latter pane, possible varieties include: antique ZONE, antique N, antique L,

Fig. 1. CZ 1, 2c, CZ inverted, with PANAMA reading down and up. (CZ 1e)

Fig. 2. CZ 1, 2c, CZ inverted; vertical pair with PANAMA reading up on top stamp and down on bottom stamp. (CZ 1g)

Fig. 3. CZ 2, 5c, CZ diagonal, colon between RT PANAMA and bar. (CZSG 2d.2)

Fig. 4. CZ 10, 2c, CZ invert with spaced A\_L in CANAL. (CZSG No. 10a.1)

**Fig. 5. CZ 12, 5c, PANAMA double, antique CANAL. (CZSG 12f)**

No double varieties are known for Scott 15-18.

Scott 19c ( 8 cts double) is illustrated in CZS (Fig. 4.72) with PANAMA reading up and down; this should be CZSG 19e. The error is also known with antique Z and with P\_NAMA.

Finally, Scott 20 is known with 8 cts missing; the right half of a pane contained the error as well as antique CANAL (CZSG 20e, Fig. 8), antique ZONE (CZSG 20f, Fig. 9), antique N (CZSG 20c.1), and PAMANA at left (CZSG 20c.4). Each of these errors is unique. The stamp also exists with 8 cts double (20d); one of the ten copies has CANAL in antique type and should be CZSG 20g (CZS, Fig. 4.76).

No major double errors are known on the more modern issues, except J17e with double overprint, E of POSTAG\_ missing. Amongst the more interesting combinations of errors with minor varieties are the broken "O" on Scott 39e and 91a and the spacing varieties of 91c which are apparent only in multiples.

The double errors are currently under appreciated (unless they are listed in the Scott catalog). At recent sales, there have been no premiums paid for these very rare errors. There is an inconsistency in their being listed, either by Scott or the CZSG, with only a small group familiar to collectors. Those that still exist need to be identified and at least illustrated and included in the CZSG detailed list.

## President's Report

*continued from page 1*

cess that now exists, communication should not present a great problem and I accepted.

My thanks and appreciation for the fine work during the past six years of the outgoing officers. Jim Crum-packer will continue surveying the sales and auctions of Canal Zone stamps and reporting on those that prove interesting. In addition I have appointed him to join Dick Salz and George Campbell on the Publications Committee. It is also much appreciated that he has offered to get the CZ ABNCo. Specimens included in the major catalogues and to update the CZ stamp checklist.

Of course, we can't let our ex-VP Dick Salz rest too much. In the *Canal Zone Philatelic Notes*, July 1953, our first editor, Edward Conger, wrote that Rudolph Weiler was collecting information on the CZ First Series on cover and that they intended to publish their study, *CZSG Handbook #3*. His work was passed on to Floyd

Brooks, then to Dick Salz and in the 3<sup>rd</sup> quarter 1970 CZP another request for copies of covers was made. Finally, as president of the CZSG in the 3<sup>rd</sup> Quarter 1973 CZP, Dick made his *final request* (italics are Dick's) for additional Xerox copies as he then had 390. He appears to have been successful as 30 years later he has in the neighborhood of 663 unique photo copies and has been working together with Brad Wilde to prepare a document for publication. As this year is the 100<sup>th</sup> anniversary of these stamps I am looking forward to seeing it published. It will be a great reference and give us a better idea as to the usage of these three stamps during their short period of usage.

It is greatly appreciated that Tom Brougham volunteered to be in charge of the 2004 Mail Sale. Dick Salz will assist him and for the first time the sale will use professional software made specifically for stamp auctions. The deadline for sending in material to Tom will be June and the sale is expected to be in September.

Since last summer I have been running membership "sales" on eBay for the CZSG and our sister organization for Colombia and Panama collectors, COPAPHIL. Search for "Canal Zone Group" to find it. eBay has given us a great channel to connect with people around the world at an extremely low price of only 14 cents a day. We have attracted not only collectors of CZ stamps but also those who are new to CZ stamp collecting. It only takes a short period of time to revise and edit the text on eBay so I am able to change it as soon I learn of anything of interest to our members. Feel free to get in touch with me if you are planning a CZSG meeting or know of a related article published in the press. In most cases, I can mention it on eBay and we can then add it to our website and to the CZP.

I am looking forward to the next two years and to meeting many of you, if not in person, then by email or letter.

## SANDICAL 2004, Souvenir Cacheted Covers / Tee Shirts

**SANDICAL**, San Diego's annual stamp show, Feb. 6-8, 2004, used a Canal Zone motif as its themes:

*Celebrating the Centennial of the creation of the Canal Zone in 1904, and The 75<sup>th</sup> anniversary of FAM-5 flights between Miami and Cristobal.*

Souvenir cacheted laser-printed show covers were prepared and arrangements have been made with the show Cachet Chairman to provide these to our members.

There are three varieties of monarch sized covers available at \$2.50 each, unaddressed, postpaid under cover. All are autographed by the artist: 1. A ship roaring thru Culebra

Cut, "Centennial 1904-2004" / 2. "Canal Zone First Flight, 75<sup>th</sup> Anniversary" / 3. "Surf Canal Zone"

Additionally available is a very attractive Tee-shirt illustrating in color the 10 cent 10<sup>th</sup> Anniversary Canal Zone Airpost commemorative stamp and the show cancel. Three sizes are available: Small, Large, and Extra-large (\$10 each, postpaid).

Covers and Tee-shirts may be ordered from Mark Kirby, SANDICAL Cachet Chairman, 160 West Mission Avenue, Escondido, CA 92025. Checks must be made out to SANDICAL.

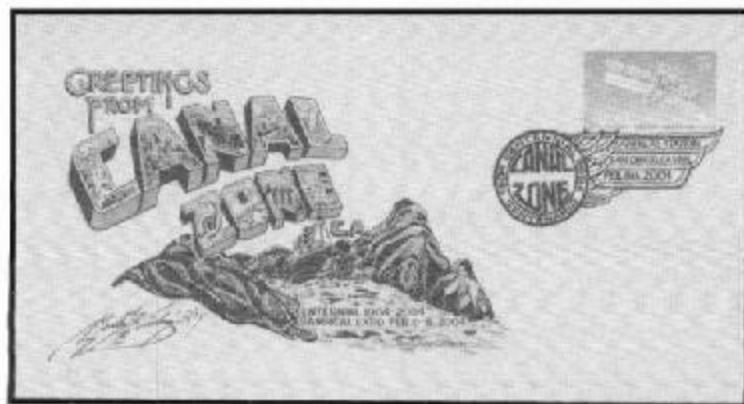

## Richard Murphy Receives Bew Award

When CZSG Secretary Alfred R. Bew died in 1988 a tremendous void became apparent in the CZSG organization. Al Bew had handled the membership records, the dues notices, as well as the sale of the various CZSG publications. As you are well aware the secretary position was taken over by John C. Smith who has done an admirable job of keeping track of our members.

Our elder member, George Stilwell, did a great job in finding someone to handle the publications - Richard P. Murphy, who has been on the job for the past 15 years. He takes orders for past publications, mailing them out, and keeps track of the receipts. So after 15 years, the total sale of publications amounts to \$13,416 - no small potatoes!

Thus I have asked the officers and directors to consider presenting the Alfred R. Bew Service Award to Richard Murphy. This was approved unanimously and by the time you read this, Rich Murphy will have received the honors due.

R. H. Salz
